Introduction

AppJetty has come up with an exciting theme specially made for customizable backend look of the admin panel. This backend theme is enriched with custom features and elements. With Falcon Material Backend Theme one get full technical support for Odoo Views with Graphics. Admin has color, font and layout custom options for backend. With numerous useful themes, features, one can personalize the theme and make it look better. One can explore the flexibility offered by Falcon Material Backend Theme. Falcon Material Backend Theme is fully responsive for easy access on multiple devices.

Benefits of Falcon Material Backend Theme

- Falcon Material Backend Theme provides elegant and compact view of Odoo Backend.
- With Falcon Material Backend Theme, admin can customize Color, font & layout of backend.

Pre-requisites

Following points must be followed before starting the plug in installation:

- You should login as an Admin in Odoo.
- Check if your Odoo Instance is compatible for Falcon Material Backend Theme.
- An e-commerce module should be present in your instance to use this theme.

Note: Falcon Material Backend Theme v11's all new features are not available in v10.

Installation

Installation Steps

Step 1: Download and extract the zip file.

Step 2: Check your Odoo add-ons path.

- It should be same as defined in Odoo Config file.
- Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
- Open Config file:
 - Give the command: `sudo/etc/odoo.conf`
 - Config file content: `addons_path = /opt/odoo/addons`

Step 3: Open Terminal and go to download location

- For e.g. if the download location path is: `/home/odoo/Downloads` then the command to be written in the terminal would be: `cd/home/odoo/Downloads`

Step 4: Copy download modules to addons path

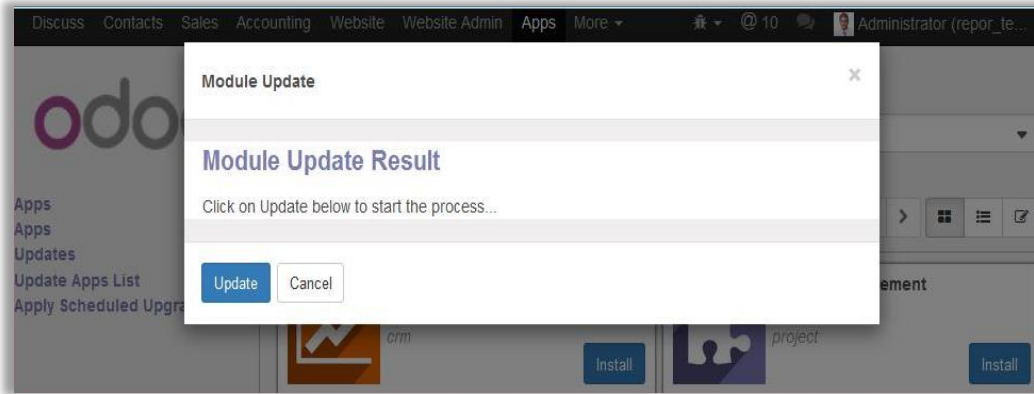

- Give the below mentioned commands to perform copy operation:
 - `$cd /home/odoo/Downloads/falcon_backend_theme`
 - `$cd v8`
 - `$sudo cp falcon_backend_theme /opt/odoo/addons`

Step 5: Restart Odoo server

Step 6: Login with the admin credentials in your odoo instance.

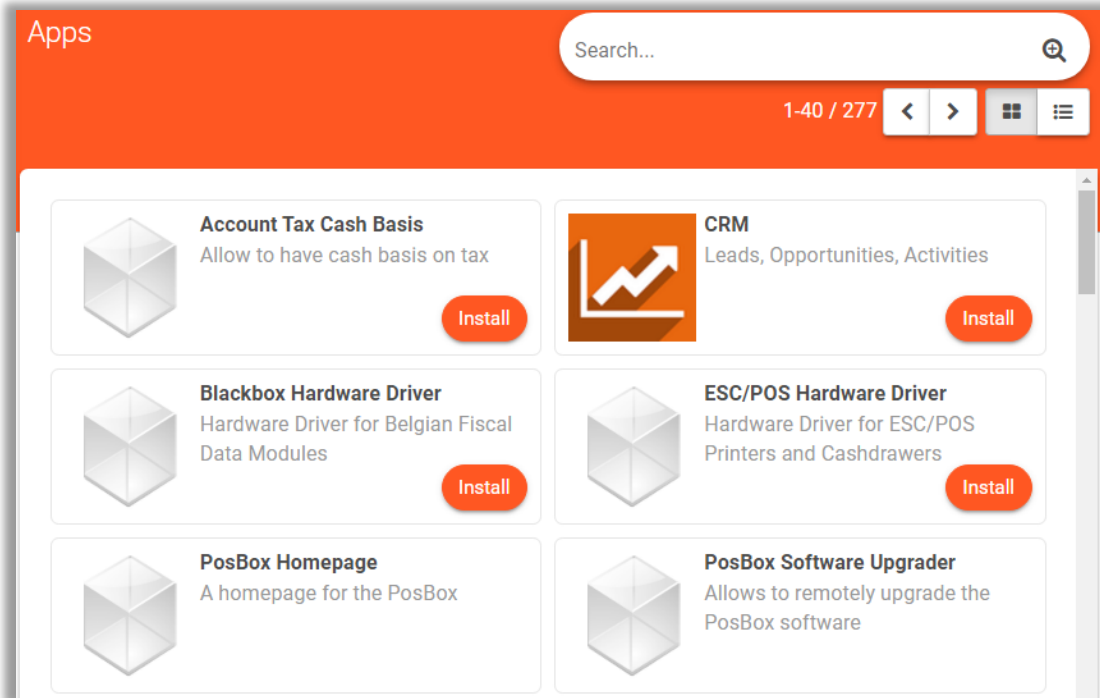

Step 7: Go to Settings/Update Module List.

- Click on 'Update' button.

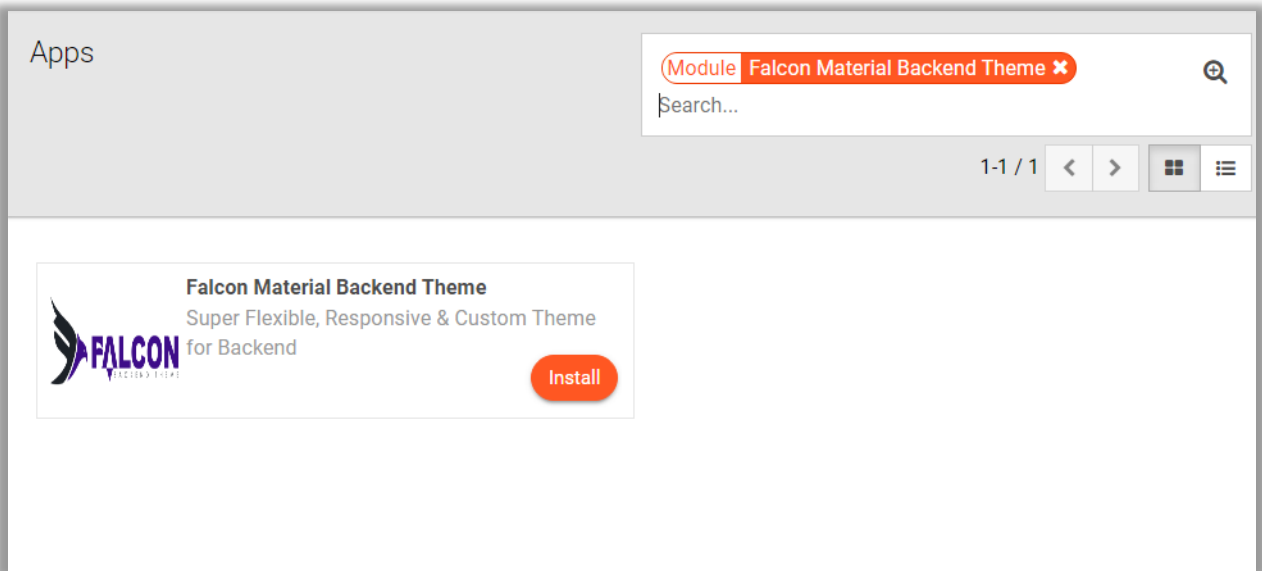

Step 8: Go to Settings/Local Modules

- Remove search filter

USER MANUAL – Falcon Material Backend Theme

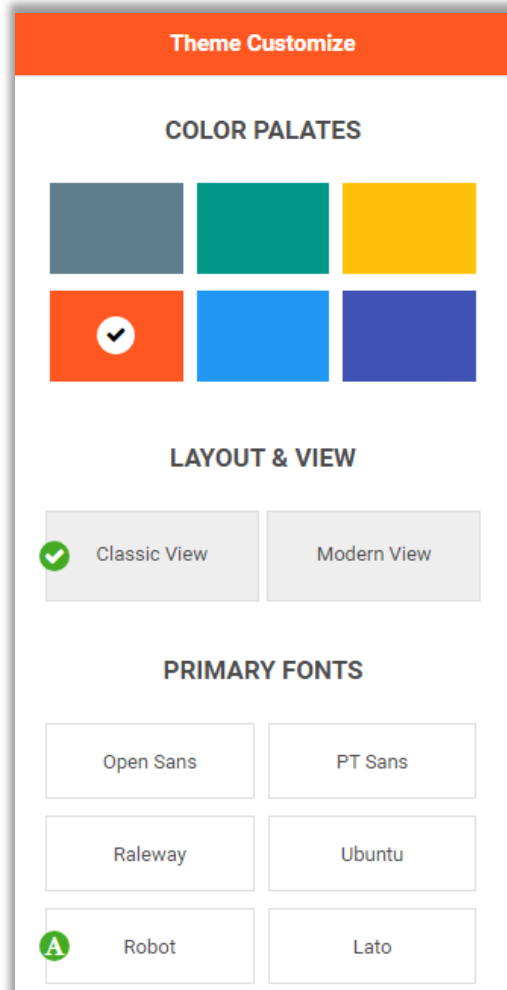

- Enter module name in the search box provided in the top right corner of the page. For e.g. here write “Falcon Material Backend Theme”.
- Click on ‘Install’ button.

Theme Configuration

Delta PC	SO002 03/01/2017 13:...	\$2,947.50	Quotation
Agrolait	SO001 03/01/2017 13:...	\$9,705.00	Quotation

Calendar View

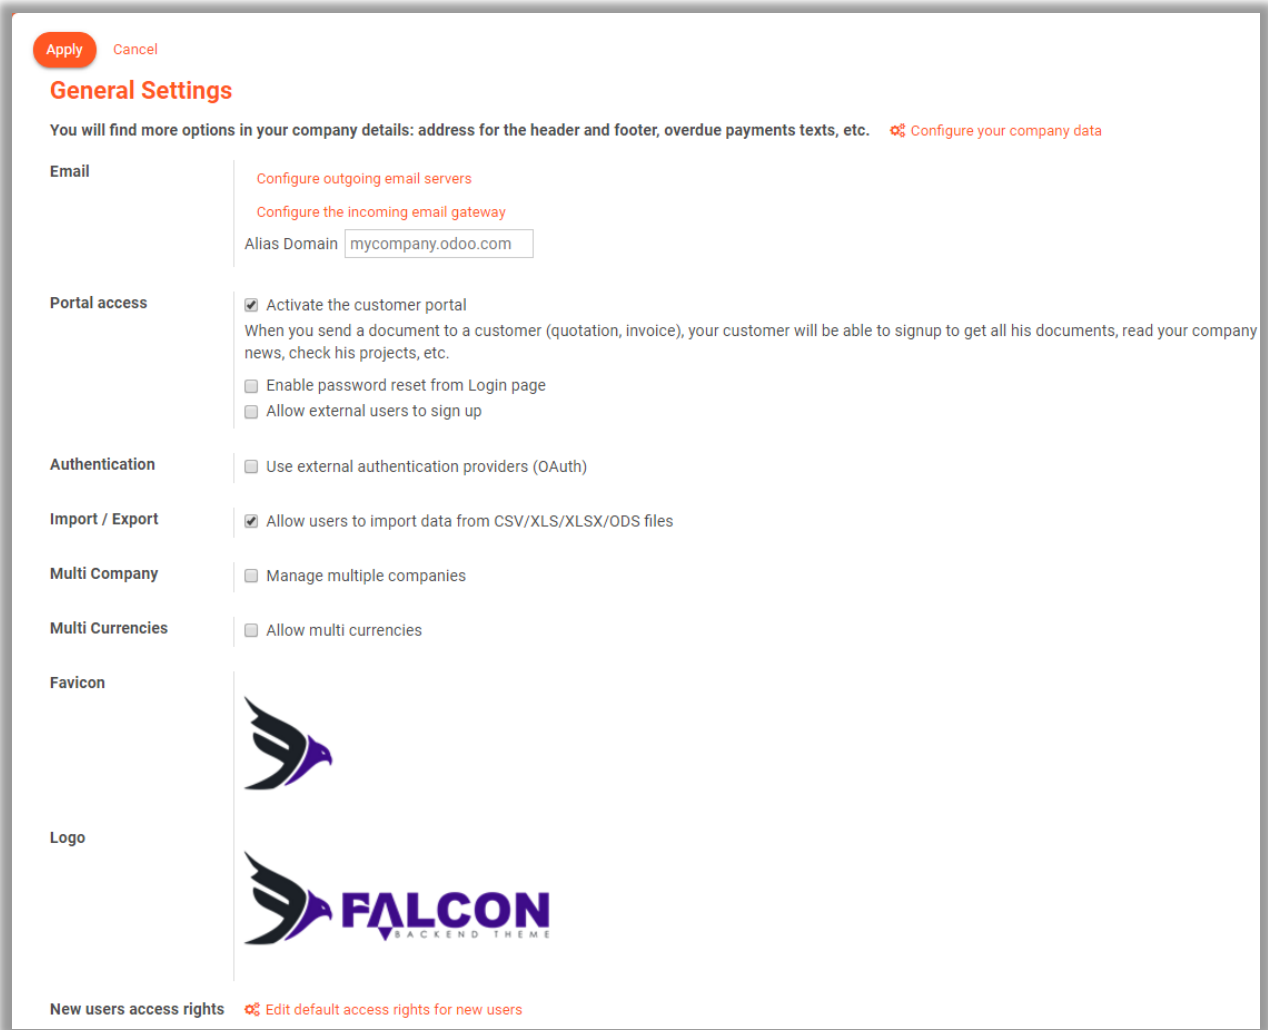

The screenshot displays a web application interface for viewing sales orders in a calendar format for April 2017. The interface includes a sidebar with navigation icons, a search bar, and a main calendar grid. The calendar grid shows dates from 13th to 22nd, with a detailed view of the 13th. The detailed view lists several sales orders with their times and descriptions.

W	Sun	Mon	Tue	Wed	Thu	Fri	Sat
13	26	27	28	29	30	31	1
							13:26:12 - 14:26:12 China Export, 2240 13:26:13 - 14:26:13 China Export, 14981 13:26:13 - 14:26:13 China Export, 7315 13:26:13 - 14:26:13 Think Big Systems, 750
14	2	3	4	5	6	7	8
15	9	10	11	12	13	14	15
16	16	17	18	19	20	21	22

On the right side, there is a mini-calendar for April 2017 and a list of sales orders. The mini-calendar shows the current date (1st) highlighted in red. The sales orders list includes a checked item labeled "Sales Order".

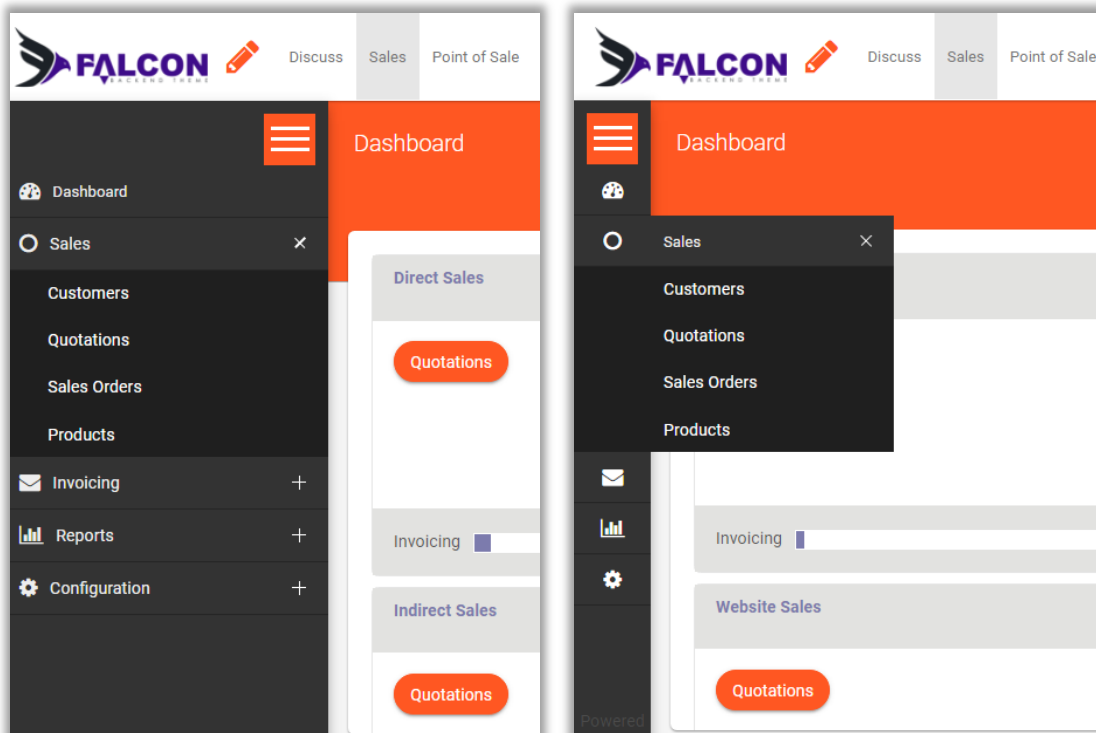

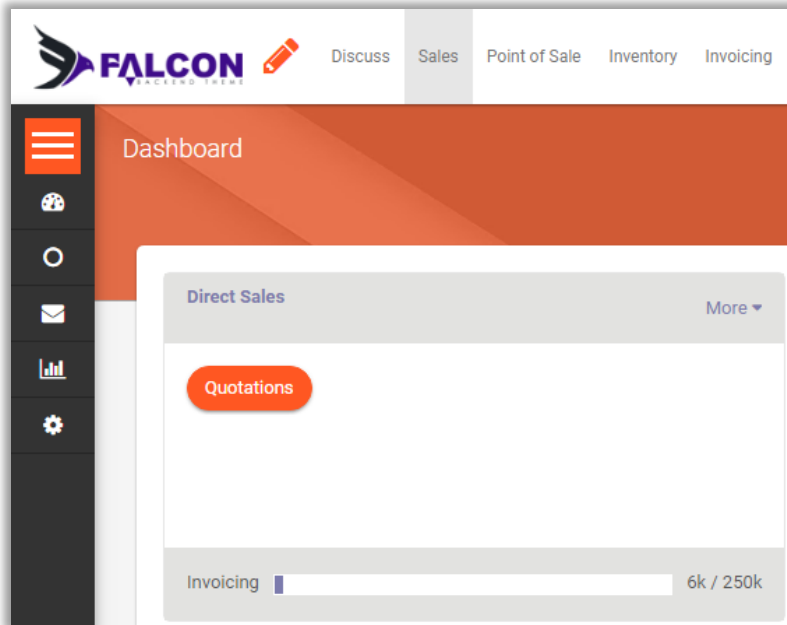

Add Favicon to the Backend

- Go to **Settings** -> **General Settings** to add Favicon in the Backend.
- Click on **'Favicon'** & **'Logo'** to add Favicon & Logo in the backend.

Collapsible Menus

- Go to any Menu which you want to collapse. Click on Drawer Icon to collapse and expand the menus.

Note: This Theme will not work for Odoo Online and Odoo Enterprise Version.
