Introduction

WC Show All Reviews plug-in that displays all the reviews posted on your various products in a single page or with pagination. You can select the pages for which you want to display all the reviews with or without pagination. You can use related short code for displaying reviews on selected page.

Benefits of Show All Reviews

- Helps display all the reviews in a single page or with pagination
- Exclude unwanted reviews of a product from the page
- Along with Reviews, the review postdate and rating of the product can also be displayed.
- Reviews can be filtered on the basis of different filter criteria's.
- Pagination can also be set from the Front End.
- Various template options for enhancing look and feel.
- Read More button if the review is too long.
- Export/Import review.
- Vendor's store, exclude customer's review support using shortcode.

Pre-requisites

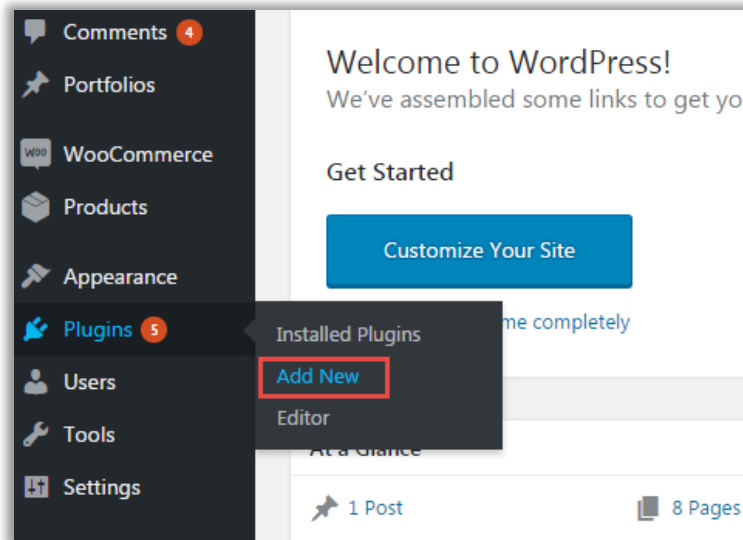

Following points must be followed before starting Installation.

- You should login as an Administrator in WordPress.
- You must have a valid License Key Provided by AppJetty.

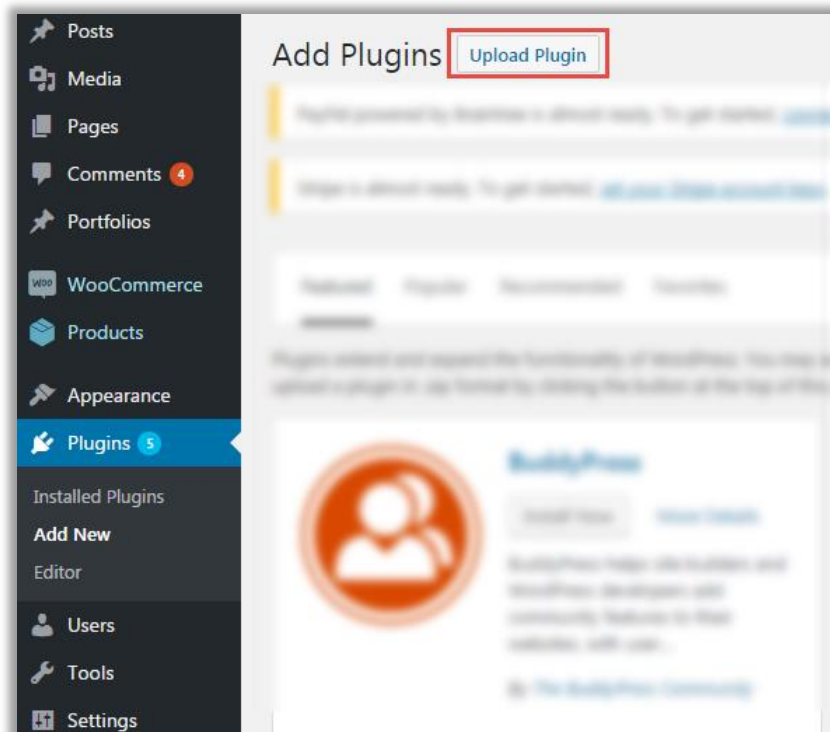

Installation

Installation Steps

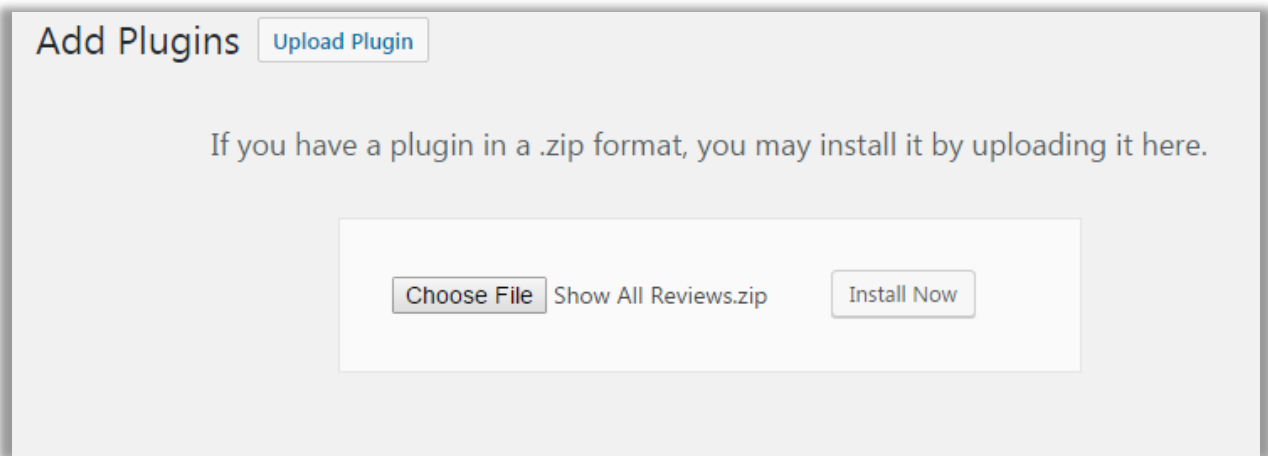

- To start with the installation, Log-in as Administrator into WordPress. Hover over “Plugins” and click on ‘Add New’ to install the package.

- Click on ‘Upload Plugin’ Button

- Click on '**Choose File**' button and browse the zip file. After uploading package, click on the '**Install**' button to install the package.

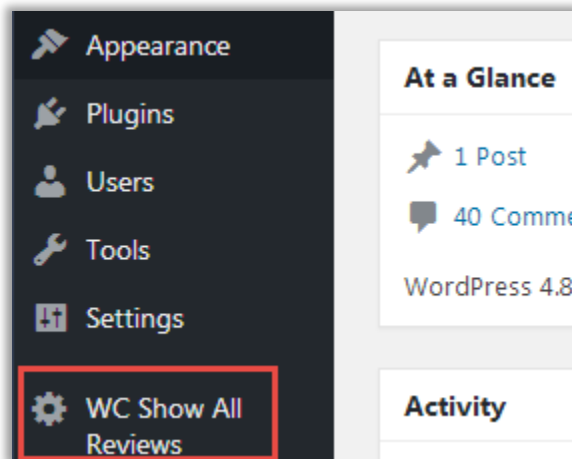

Plug-in Configuration

Get activation key

- Get the activation key from the Order Confirmation Mail. OR
- Login to your AppJetty Store account then go to Downloadable options and copy the activation key for the **WC Show All Reviews** -Plug-in.

Activate your plug-in

- After successful package installation, you need to validate your license and activate your **WC Show All Reviews**.
- Log-in to WordPress as admin. Click on '**WC Show All Reviews**' Option.

- Enter License activation key for the **Show All Reviews** plug-in provided by AppJetty Store. Validate your license by pressing the ‘**Save Changes**’ button.

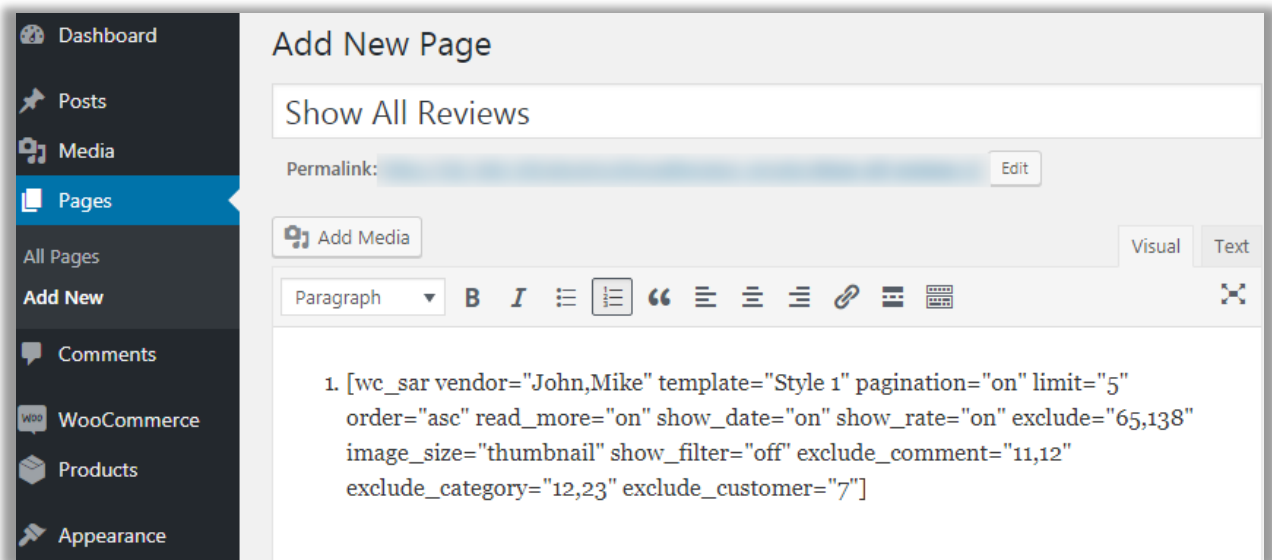

Front End Configuration

Add Page Title

- Hover over Pages Module and click on “Add New” option
- Enter the Page Title which you want to display on The Reviews Page in Front End.

Add Short Code

- Enter the Short Code **[wc_sar]** to Display the Reviews on the page you want.
- You can also add parameter “**vendor=vendor_name**” (as shown in image) to short code for including reviews of those vendors` products only.

- You can also add parameter **“template=template_name”** (as shown in image) to short code for displaying unique template style on each page.

Note: 'template_name' can be replaced with any template style name which you want to apply, if style name is not provided in short code then it will take the template style which is set from global configuration settings page.

- You can also add parameter **“pagination=on/off”** (as shown in image) to short code for displaying pagination for products on vendor’s store. Set “on” parameter to enable pagination or “off” parameter to disable pagination.
- You can also add parameter **“limit=number_of_limit”** (as shown in image) to short code for restricting number of reviews displayed on vendor’s store per page.
- You can also add parameter **“order=asc/desc”** (as shown in image) to short code for restricting order of reviews displayed on vendor’s store. Set “asc” parameter to display oldest reviews first or “desc” parameter to display latest review first.
- You can also add parameter **“read_more=on/off”** (as shown in image) to short code for enabling or disabling read more button for reviews. Set “on” parameter to enable read more button or “off” parameter to disable read more button.
- You can also add parameter **“Show_date=on/off”** (as shown in image) to short code for displaying or hiding date from reviews. Set “on” parameter to show date in reviews or “off” parameter to hide date from reviews.
- You can also add parameter **“Show_rate=on/off”** (as shown in image) to short code for displaying or hiding rating from reviews. Set “on” parameter to show rating in reviews or “off” parameter to hide ratings from reviews.
- You can also add parameter **“include=product_id”** to short code for including that product’s reviews and **“exclude=product_id”** (as shown in image) to short code for excluding that product’s reviews.
- You can also add parameter **“image_size=image_size_option”** (as shown in image) to short code for displaying given image size in reviews. Image_size_option can be replaced with available options i.e. thumbnail, medium, medium_large, large, woocommerce_thumbnail, woocommerce_single, woocommerce_gallery_thumbnail, shop_catalog, shop_single, shop_thumbnail.
- You can also add parameter **“show_filter=off”** (as shown in image) to short code for hiding filter from review page.

USER MANUAL – Show All Reviews

- You can also add parameter “**exclude_customer=customer_id**” (as shown in image) to short code for excluding those customers reviews.
- You can also add parameter “**include_category=category_id**” to short code for including product reviews of that category and “**exclude_category=category_id**” (as shown in image) to short code for excluding product reviews of that category.
- You can also add parameter “**exclude_comment=comment_id**” (as shown in image) to short code excluding those reviews directly.

Plug-in Functionalities

- **Pagination** – User can set pagination from Front End. Click on the Pull-down Menu to select the pagination count.
- If you click on a product then you will be redirected to the Product Detail Page.

The screenshot displays a 'Show all review' page. At the top, there are two dropdown menus for 'Reviews Filter' and 'Selection', both currently set to 'Please Select', and a 'Go' button. Below this, it states 'Total Reviews: 39'. The reviews are presented in a grid of six items, each featuring a circular product image, a title, a date, a star rating, a review text, and the reviewer's name.

Product	Date	Rating	Review Text	Reviewer
Woo Ninja	June 7, 2013	★★★★☆	He really is the cutest little man. Swooon!	- MARIA
Premium Quality	June 7, 2013	★☆☆☆☆	I didn't expect this poster to arrive folded. Now there are lines on the poster and one sad Ninja.	- MARIA
Woo Logo	June 7, 2013	★★★★★	Three letters, one word: WOO!	- MARIA
Ninja Silhouette	June 7, 2013	★☆☆☆☆	This only gets 1 star because I don't have this yet. I want it now!	- MARIA
Ship Your Idea	June 7, 2013	★★★★☆	Ship it!	- MARIA
Woo Ninja	June 7, 2013	★★★★☆	Perfect for the lady Ninja in your life!	- MARIA

- **Read More** - It will appear if the review is too long. Click on the 'Read More' link to view the whole review.
- **Reviews Filter** – Choose a Filter Criteria from the Pull-Down Menu.

Show all review

Reviews Filter: Products (selected), Please Select, Products (highlighted), Product Categories, Product Newness, Product Price, Product Rating

Selection: Please Select Product

Pagination: 10

Go

- **Selection** – Based on the Filter Criteria, further filtering options can be chosen from the Pull-down Menu. The Selection Criteria is as follows:

- **Products** – All Products List will be shown, click on a product to view all reviews of that Product.

Reviews Filter: Products

Selection: Please Select Product (highlighted), Vneck Tshirt, Hoodie, Sunglasses, Cap, Woo Logo

Pagination: 10

Go
